Meeting to present the 6ème pathway

Save the date! The LFIB invites parents of CM2 to a meeting to present the language pathways from class 6ème onwards. An invitation will be sent to the families concerned, but you can already reserve your date on Thursday 2nd March from 5.00 pm.

Anti-pollution masks

We are going through a period of high pollution. As a reminder, you will find on the LFIB website [the protocol](#) to follow according to the different pollution thresholds.

We remind you the importance of providing your child with an anti-pollution mask (mask mentioning the protection against PM 2.5 particles). Indeed, children without masks are kept in a closed room and do not have the possibility to play outside with their friends.

School refurbishment works

During the last school holidays, the sanitary facilities in the shared areas of the maternelle were equipped with low coloured partitions, thus offering more privacy to the pupils. A sanitary area was also created in the reception area of the elementary school.

NEWS

Carnaval

The maternelle pupils are preparing their Carnival which will take place on Friday 10th February. They will be wearing the costumes prepared in class and celebrating with music and a good snack.

They will start the day with a small parade in the playground. Parents who are present at 8.00 am will be able to stay and watch this little party before saying goodbye to the children who will celebrate Carnival with the other maternelle classes.

International Week

From the 6th to the 10th of February, the elementary students will discover many countries of the world through the activities offered during the International Week.

This week will end with a festive day on Friday 10th February where parent volunteers (whom we thank) will come and set up stands around a country.

Open House in Maternelle

The second maternelle Open House is scheduled for Friday 3rd March. Please feel free to share the information with interested families around you.

 *3* March
